## EXCLUSIVE TABLE OPPORTUNITIES

**LUNCH | Thursday, October 26 | 11:45 am - 1:45 pm**

### Curve Benders

What are the secular, macroeconomic, U.S. policy and geopolitical events that have the potential to “bend the curve” on the trajectory of our economy and the commercial real estate industry? Bricks and mortar “supply and demand” issues remain the bedrock of our industry, but secular issues including demographics, automation, federal and state debt are increasingly playing a leading role in how we make commercial real estate decisions. Join our speakers for a presentation on capital markets, and these and other issues in an engaging and interactive discussion.
